## Training Schedule

**Pool Sessions:** (at our heated pool in Baker Street)

Every Monday evening and all day on alternate Sundays

Discover Scuba, Scuba Review, Open Water referral, Confined Water Training, etc.

**Open Water training** : Every weekend!

We rotate between open water and advanced/adventures in diving on alternate weekends, so the longest you need wait for either is a fortnight.

**Speciality Diver Training/Master Scuba Diver Training:** Every weekend!

Includes Deep, Nitrox, Navigation, Search and Recovery, Diver propulsion vehicle and many more...

**Rescue diver courses** : Once every three weeks.

**Emergency First Responder:** Each Wednesday Evening

To be certified as a rescue diver you need to take the "Emergency First Responder" course, which we offer every Wednesday evening at the store in Finchley Road.

**Divemaster** : Start immediately

We offer Divemaster training that can be started literally any day.

**We are flexible : Our Schedule bends to fit yours**

We hope you notice that we schedule continual, regular training. We don't wait until we have a specific number of enquiries then call you back to schedule a date - we are in the business of teaching people to dive every day and have no problems teaching small numbers or individual students, one on one, at your convenience. If our schedule, as regular as it is, does not suit you, just call us. We are flexible and will always try to accommodate you.
